EDUCATION

BACHELOR OF SCIENCE IN BUSINESS MANAGEMENT

Western Governors University, 2019

COMPTIA PROJECT+

Project Management, 2017

PROJECTS

- Completed and released four Flutter apps:
 - Presentation app for school district with 3k+ daily users (Firebase)
 - Order Management System for SportAircraftSeats.com with a very robust and complex feature set
 - Data collection app for drone company (Getx/Firebase)
 - Air traffic controller simulation app
- Various Arduino and embedded systems projects
- Worked on a large multi-year healthcare app with Haxe

TECHNICAL SKILLS

- Project Management
- Scrum Methodology
- Library Development
- AWS Development
- GraphQL
- Flutter/Dart
- Flutter Bloc
- Swift
- JavaScript
- Haxe
- Typescript
- Firebase
- Git

PROFESSIONAL EXPERIENCE

APR 2022 -
PRESENT

SOFTWARE ENGINEER EXP REALTY

- Design, develop, and architect systems with a focus on efficiency, scalability, stability, and customer satisfaction
- Mentor junior devs
- Demonstrate extensive testing knowledge
- Demonstrate extensive flutter Bloc knowledge while using efficient code gen tools like freezed and json_annotation
- Work with AWS lambda functions building middleware that supports a safe and scalable system
- Collaborate with project management, QA and other team members to ensure system requirements are met

JAN 2021 -
APR 2022

SOFTWARE ENGINEER SPROUTLY, LLC

- Built multiplatform mobile app and web app with a custom UI framework with bridge layer interfacing with native APIs
- Worked on documenting systems and code bases, and unit testing systems.
- Collaborated with engineering and design teams to develop high-quality solutions by identifying product needs
- Successfully led and released two production apps using Agile methodologies to exceed all client needs and expectations

JAN 2021 -
PRESENT

OWNER QEVKA TECHNOLOGIES

- Engineered, delivered, and maintain a high-profile project with complex feature set for a manufacturing company
- Lead the technical design and implementation of software systems
- Propose solutions to drive innovation and efficiency within products and services
- Employ industry best practices to evaluate, correct, and prevent vulnerabilities during the software development process

AUG 2020 -
DEC 2020

FLUTTER DEVELOPER INTERN SELLSHIP.COM

- Produced clean, validation-ready code for project needs
- Contributed to and impacted the entire software development cycle and delivery from ideation to deployment
- Supported efforts to enhance the user experience in accordance with development best practices
