## TECHNICAL SKILLS

- Project Management
- Scrum Methodology
- Library Development
- AWS Development
- GraphQL
- Flutter/Dart
- Flutter Bloc
- Swift
- JavaScript
- Haxe
- Typescript
- Firebase
- Git

## PROFESSIONAL EXPERIENCE

APR 2022 -  
PRESENT

### SOFTWARE ENGINEER EXP REALTY

- Design, develop, and maintain systems with a focus on efficiency, scalability, stability, and customer satisfaction
- Provide design development of projects involving application development, migrations, and additions to existing applications
- Demonstrate extensive testing knowledge and integration with Flutter
- Continuously improve software performance, maintainability, and scalability
- Collaborate with project management and other team members to ensure system requirements are met

JAN 2021 -  
APR 2022

### SOFTWARE ENGINEER SPROUTLY, LLC

- Developed and reviewed test protocols for applications before user acceptance
- Implemented standards, processes, system architecture, and design patterns to support business solutions
- Collaborated with engineering and architecture teams to develop high-quality solutions by identifying product needs
- Successfully led and released two production apps using Agile methodologies to exceed all client needs and expectations

JAN 2021 -  
PRESENT

### OWNER QEVKA TECHNOLOGIES

- Engineered, delivered, and maintain a high-profile project with complex feature set for a manufacturing company
- Lead the technical design and implementation of software systems
- Propose solutions to drive innovation and efficiency within products and services
- Employ industry best practices to evaluate, correct, and prevent vulnerabilities during the software development process

AUG 2020 -  
DEC 2020

### FLUTTER DEVELOPER SELLSHIP.COM

- Produced clean, validation-ready code for project needs
- Contributed to and impacted the entire software development cycle and delivery from ideation to deployment
- Supported efforts to enhance the user experience in accordance with development best practices
